Raynyla - 3D

I have a dream that in the future there will be a cure for DIABETES because kids all over the world are dying from it. I feel sorry for the kids that have DIABETES. I hope that some day the health foundation finds a cure. I hope the kids survive from their sickness. I just hope a lot of people don't die from it and the whole world does not get it.

My dream is that the schools would get more money. People would get away from hurricanes. Poor people will have food and water and vegetables and fruit. I will help poor people and sick people.

Colin - 2H

My dream is for everybody to get along. It's true we all need to love each other to survive. If someone hits you don't hit him back! Use his words. That's what keeps my dream alive. I don't want people being bullied around! I'll make the world a better place. That's my dream. I don't think there's anything else to be said.

Gerard - 3C

I have a dream that someday mean people will be nice to nice old people. We all should be nice to old sick people. What if you have a sick relative in your family like your grandma or your grandpa. You should take good care of your relatives. I have a dream that old people will be treated like they're supposed to be treated. You will listen to every single word they say.

We have a dream

Samantha - 2S

My dream is to stop war. People die and fight. I think it is silly. People solve problems by having war.
