

## Pop-Up Books

You can make single page pop-up books for short subjects or you can lengthen the book by gluing the pages back to back. The instructions provided are for single page pop-up books.

### Materials:

one 9" x 12" piece of construction paper or index paper

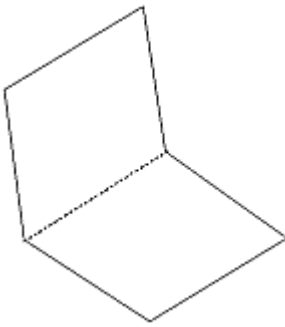

one 8 1/2" x 11" pop-up pattern on white paper

simple illustrations or shapes for the pop-up pictures

crayons or markers

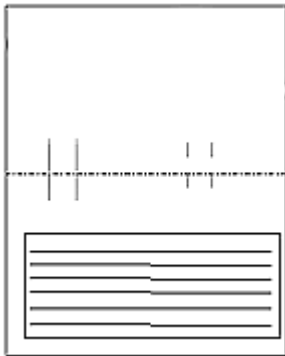

glue

### Pop-Up Books - Step 1

Fold the piece of 9" x 12" construction or index paper in half the hamburger way. This is the cover for your pop-up book. You can decorate the cover with the crayons or markers, or cut out illustrations and glue them on the front.

### Pop-Up Books - Step 2

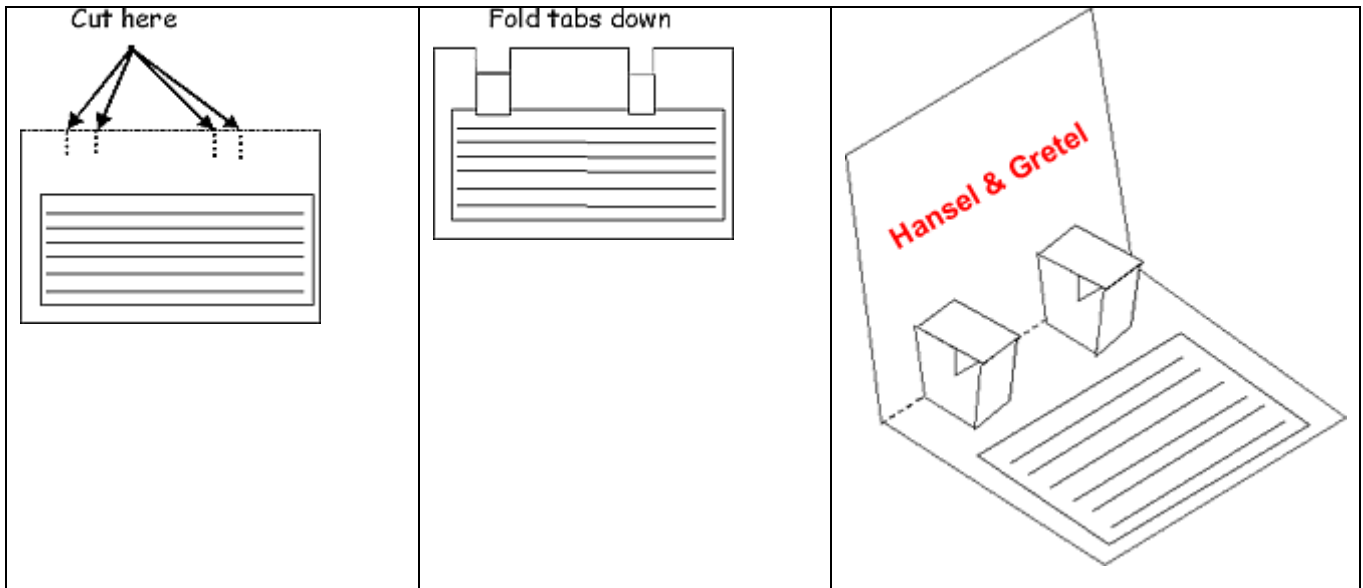

Draw the background pattern on a white piece of 8 1/2" x 11" paper. Write the story on the lines of the pop-up page.

### Pop-Up Books - Step 3

Construct the pop-up page by folding it in half on the fold line.

Cut the dashed lines to make the tabs. Fold the tabs down.

Then unfold the pop-up page and push the tabs forward.

### Pop-Up Books - Step 4

Decorate the illustrations or shapes and cut them out. Glue the decorations or shapes on the pop-up tabs.
